The debtor is responsible for providing an accurate <u>monthly</u> disbursement total for the purpose of calculating its obligation pursuant to 28 U.S.C. § 1930 (a)(6) to pay statutory fees to the United States Trustee. The disbursement total encompasses all payments made by the bankruptcy estate during the reporting month, whether made directly by the debtor or by another party for the debtor. It includes checks written and cash payments for inventory and equipment purchases, payroll and related taxes and expenses, other operating costs, and debt reduction. The only transactions normally excluded from the disbursement total are transfers within the same reporting month between multiple debtor accounts.					
A fee payment is due within 30 days after the end of each calendar quarter, or on April 30 , July 31 , October respectively. Significant Events and Case Progress:

The company experienced an operating income of \$26,892 in May compared with a loss in April of \$242,368. The loss in April was unexpected and a significant loss which adversely impacts the cash flow of the company. The May profit was also less than anticipated. The Company's cash flow is very tight and the Trustee has obtained approval of a factoring line. The company has the ability to obtain approximately \$500,000 in factoring financing. In addition the Trustee has started to market the company for sale because of the tight cash flow. The company continues to have slow sales due to bankruptcy "headwinds" and seasonality. While new marketing and sales programs have been implemented and are promising, the ability to remain a going concern will depend on the effectiveness of sales growth in the coming months.

The Court approved retention of a CEO for the company in early February. Mr. Atalla, the CEO, is managing the day to day operations in Dayton and working closely with the Trustee on operational changes. Mr. Atalla is focused on rebuilding the sales organization and driving growth in sales for the company. The company's desire is to retain proven sales professionals with experience in the industry. Mr. Atalla, has implemented a number of new sales and marketing initiatives. These programs will need to become more effective for the Company to remain a going concern.

The Trustee had anticipated that the company would be profitable for April, May and June. The company's cash position remains an issue. The Trustee has obtained DIP financing as a possible way to provide working capital to allow time for new sales programs to kick in. The trustee sees cash being tight until the company can grow sales to improve the overall cash position of the company. If sales growth does not materialize, then the company will need to be sold in a 363 sale as a going concern.

The Trustee has consolidated the majority of the operations of the company since his appointment and is focused on consolidating all of the company into the Dayton facility. The Trustee's objective is to have the company fully operating from the Dayton location by the beginning of 2018.

The company needs to clean up its operational premises to incorporate the equipment and personnel moved from Auburn to Dayton. The Trustee is actively marketing the sale of surplus equipment. In addition the Trustee obtained court approval for the disposal of smaller scrap equipment at the Dayton facility. The Trustee intends to market the surplus equipment for sale

The estate was successful in the pending litigation matter with Medallic Art Company LLC, an entity controlled by the former CEO of the Debtor, Ross Hansen. The trial was cancelled when Medallic Art Company capitulated and dismissed its claims. The Court has entered a judgment substantively consolidating The Medallic Art Company assets and liabilities with the NWTM bankruptcy estate effective April 1, 2016. With the consolidation of the operations, the Trustee is now in a position to market the Company as a going concern to potential buyers. Given the current cash position, the company is moving forward entertaining possible offers to buy the Company.

As part of the Medallic litigation above, the Trustee obtained the payment records to the Medallic Art Attorneys. The payment records show that the Medallic Art Attorneys were paid from the liquidation of gold and silver. We filed a 2004 motion (discovery motion) with the court to obtain records from the company that purchased the gold and silver. As of this point in time over \$500,000 of gold and silver has been liquidated to pay Ross Hansen and Diane Erdman attorneys. The trustee has also filed motions with the Bankruptcy court to do additional depositions of Ross Hansen and Diane Erdman to determine the source of the gold and silver that was liquidated. This is of grave concern to the Trustee. Not just because of the funds used to pay the Medallic Art attorneys, but the amount of professional fees incurred by the estate to pay for the litigation against Medallic Art, likely in excess of \$750,000. Trustee is trying to move as quickly as possible to determine if additional gold and silver may be held by Ross Hansen and Diane Erdman and the source of the gold and silver sold.

- We can apply any unpaid amount against your credit limit

Explanation of Finance Charge: Your Finance Charge attributable to interest (hereinafter referred to as interest) is computed using the Average Daily Balance method.

Average Daily Balance method (Balance Subject to Interest Rate): Your interest is computed on all purchases and cash advances (collectively "advances") from the date each advance is posted until we receive payment in full (there is no grace period). We figure the interest on your line of credit by multiplying the daily periodic rate by the "Average Daily Balance" of your line of credit (including current transactions) and multiplying by the number of days in the billing cycle. To get the Average Daily Balance we take the beginning balance of your line of credit each day, add any new advances or debits, and subtract any payments and credits, any non-financed fees and unpaid interest. This gives us the daily balance. Then we add up all of your daily balances in the billing cycle and divide this total by the number of days in the billing cycle to get your Average Daily Balance.

CREDIT INFORMATION: If you believe we have reported inaccurate information about your account to a credit reporting agency, you may contact the credit reporting agency or write to us at:

Key Credit Research Department P.O. Box 94518 Cleveland, Ohio 44101-4518

Please include your account number, a copy of your credit report reflecting the inaccurate information, name, address, city, state, and zip code, and an explanation of why you believe the information is inaccurate.

Explanation of Finance Charge: Your Finance Charge attributable to interest (hereinafter referred to as interest) is computed using the Average Daily Balance method.

Average Daily Balance method (Balance Subject to Interest Rate): Your interest is computed on all purchases and cash advances (collectively "advances") from the date each advance is posted until we receive payment in full (there is no grace period). We figure the interest on your line of credit by multiplying the daily periodic rate by the "Average Daily Balance" of your line of credit (including current transactions) and multiplying by the number of days in the billing cycle. To get the Average Daily Balance we take the beginning balance of your line of credit each day, add any new advances or debits, and subtract any payments and credits, any non-financed fees and unpaid interest. This gives us the daily balance. Then we add up all of your daily balances in the billing cycle and divide this total by the number of days in the billing cycle to get your Average Daily Balance.

Explanation of Finance Charge: Your Finance Charge attributable to interest (hereinafter referred to as interest) is computed using the Average Daily Balance method.

Average Daily Balance method (Balance Subject to Interest Rate): Your interest is computed on all purchases and cash advances (collectively "advances") from the date each advance is posted until we receive payment in full (there is no grace period). We figure the interest on your line of credit by multiplying the daily periodic rate by the "Average Daily Balance" of your line of credit (including current transactions) and multiplying by the number of days in the billing cycle. To get the Average Daily Balance we take the beginning balance of your line of credit each day, add any new advances or debits, and subtract any payments and credits, any non-financed fees and unpaid interest. This gives us the daily balance. Then we add up all of your daily balances in the billing cycle and divide this total by the number of days in the billing cycle to get your Average Daily Balance.
